Silver Shield AI

5 Rules to Stop a Scammer

1. **Pause. Real emergencies can wait.**
   Anyone rushing you is a warning sign.

2. **Hang up and call back yourself.**
   Use a number you already know, like the one on your bank card.

3. **Never pay with gift cards, crypto, wire transfers or cash couriers.**
   No real agency or business asks for these.

4. **Never share codes, passwords or PINs.**
   Not with anyone who contacts you, even if they say they're your bank.

5. **Talk to someone you trust before acting.**
   Use a family "safe word" for emergency calls.
